

Dear Parents,

For this summer, here are some suggestions;

*Read! Read! Read! I suggest making it fun and you may want to also join the 2019 Libraries Rock summer reading program. It's free and you can work for prizes. Sign up at <http://horrylibsc.readsquared.com/>. The program starts in June and goes until August 3rd. We will be participating in Reading Counts this year and you will be able to test on the books you have read during the summer.

*Practice your Math facts. Keep addition/subtraction flash cards in the car for a red light challenge. How many can you get done before the light changes? Write a summer budget and have your child keep track of the money they spend. Make math a part of everyday life. We will be learning multiplication and division this year.

* If you are traveling, learn a little bit of the history of where you are going. Go to the visitor's center and grab some free information, then tell us about it when you come back to school in August. We will be studying our state. Journal your vacations to help you remember the fun time you had.

* Plant something! Pick something! Or watch something outside (and don't forget the sunscreen) summer and Science go hand in hand! We will be working on some special science programs this year!

* On a rare, rainy day – build with Legos, do a puzzle, play a board game, write a story, create a piece of artwork and maybe even build a house of cards! We will have STEM time in the classroom weekly.

* Most importantly, keep praying and going to Mass. Check out new churches as you travel. Compare and contrast the difference and when you find something great that you love, tell me about.

Have a safe and wonderful summer!

See you in August!

Ms. Bradley
